### ***Artist Statement:***

I am inspired by nature and have a fascination of the human form. Under the guidance of a great artist and teacher, Pam Foley, and with the Sunningwell School of Art Sculpture Classes, I have developed a deep love of the medium, giving a personality and a meaning of its own to a formless block of clay.

Focussed exclusively on life models, I find it the best way to express myself, to reveal a story, a feeling or just a person.

### ***Biographical info:***

Originally from France, I moved to the UK in my early 20's. Formerly a school teacher, I was forced to retire early after a car accident and art has been a form of release and enjoyment. Living in South Oxfordshire for the past 15 years, I started painting with water colour and oils, before converting to sculpture for the past 13 years.
